PUBLIC WORKS DEPARTMENT

COUNCIL COMMUNICATION

TO: City Council

FROM: City Manager

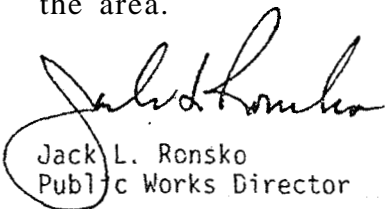

MEETING DATE: September 20, 1989

AGENDA TITLE: "No Parking" on the North Side of Oak Street, West of Cherokee Lane

RECOMMENDED ACTION: That the City Council approve the installation of 40 feet of "no parking" on the north side of Oak Street, west of Cherokee Lane, as shown on the attached plan.

BACKGROUND INFORMATION: At the August 2, 1989 City Council meeting, Mr. Bullard, a resident on Oak Street, stated that it is difficult to enter westbound Oak Street from Cherokee Lane when vehicles are parked on both sides of Oak Street. The attached letter to Mr. Bullard explains why his request for a loading zone was not appropriate.

Oak Street is only a 30-foot roadway. Due to narrow street width, there is a problem created at the intersection when parking exists on both sides of Oak. There have been no accidents due to parked vehicles in the past 3-1/2 years. Staff feels that 40 feet of "no parking" on the north side would eliminate this problem without creating a hardship for vehicles parking in the area.

SUBJECT: Oak Street West of Cherokee Lane - No Parking Zone

City staff has reviewed your request presented at the August 2, 1989 City Council meeting for a "Loading" or "No Parking" zone to create sufficient room for vehicles turning from Cherokee Lane to westbound Oak Street.

A loading zone at this location would not resolve this problem, but only reduce its occurrence, since limited parking would be allowed. Staff feels that a "No Parking" zone on the north side of Oak Street immediately west of Cherokee Lane would eliminate this problem without creating a hardship for vehicles currently parked in the area.

We are planning to present this request with similar locations on Cherokee Lane at the September 20th City Council meeting. We will send you a copy of the Council Communication prior to the Council meeting. If you have any questions regarding this matter, please contact Paula Fernandez, Traffic Engineer, at 333-6706.
